I. INTRODUCTION

The Office of the Mayor of the City of Akron, Ohio and Downtown Akron Partnership ("DAP"), which administers the services plan for the 42-block Downtown Akron Special Improvement District, Inc., respectfully submit the following application (the "Application") to the Council of the City of Akron, Ohio to expand the existing the Downtown Akron Designated Outdoor Refreshment Area (the "DORA") previously approved and created by local ordinance O156-2020, in accordance with RC 4301.82.

City Council's approval of the DORA expansion set forth in this Application would build upon Summit County's first Designated Outdoor Refreshment Area, meeting or exceeding all of the requirements of RC 4301.82, for the cultural and economic betterment of the businesses, residents, and property owners within the DORA, as well as the whole of Akron and Greater Summit County, by further establishing Downtown Akron as a destination for entertainment, culture, and activity.

Elevate Akron was a collaborative economic development strategic plan announced in October of 2018. The stated goal of the plan is to: transform the culture of economic development within Akron, expand opportunity for all residents of the City, and position the Akron region for a new trajectory in an era of rapid global change. The initiative yielded five strategies to direct the execution of this plan. Strategy 4, "Refocus on Downtown" called for development and growth of Downtown Akron. To accomplish this goal the Downtown Akron plan must become reality. The Office of the Mayor and DAP firmly believe that Council approval of the DORA expansion set forth in this Application will further the objectives identified by Elevate Akron.

Lock 3 is an open-air entertainment venue that rests in the heart of the proposed DORA and has hosted millions of visitors since its opening in 2003. From May through September, Lock 3 features weekend concerts under the open skies, Akron's biggest festivals, and a large number of community events. The winter season at Lock 3 kicks off annually with the Downtown Holiday Lighting Ceremony, which is well attended by both residents and visitors alike. When the young, and the young-at-heart, visit Lock 3, they experience the magic of Downtown, with a host of attractions including Lock 3's most popular feature, The Huntington National Bank Ice Skating Rink. The DORA will further solidify Lock 3 as a premier entertainment venue in the region.

The current DORA boundaries were set to start small and test the idea to ensure that all business owners and patrons could, and would, comply with the mandates of the DORA. With its creation more than 2 years ago, to date, there have been no incidents or criminal activity directly related to the DORA. The feedback pertaining to the current DORA has been overwhelmingly positive, with residents and Downtown stakeholders excited to expand the refreshment area so that more businesses may participate in this unique entertainment district. We appreciate the opportunity to present these new DORA boundaries for consideration and look forward to expanding the DORA's footprint, which will better accommodate the upcoming 2022 Summer Season of festivals and concerts.

A. In accordance with RC 4301.82(B)(1) and (F)(1)(a), the boundaries of the DORA are graphically depicted and further described as follows:

B. The zoning description of the expanded DORA is expressed as follows:

The zoning classification for the DORA within downtown Akron, Ohio primarily falls within two major zoning districts. The larger, mid-section of the DORA that extends from Perkins Street on the north down to Cedar Street on the south is largely zoned as U-3, Retail Business District. The Retail Business District classification allows for single and multi-family residential uses as well as office and retail business uses. In general, the area contains a mix of multi-family housing, offices, a hotel, banks, and regional attractions such as the Akron Civic Theatre, Lock 3, Canal Park, and a range of restaurants and retail businesses that serve the greater community. The southern portion of the DORA from Cedar Street south to Bartges Street is zoned URD-89, for the Opportunity Park Urban Renewal District. The URD-89 area within the DORA was formerly a tire factory for the BF Goodrich Tire Company many years ago. Today, through the URD-89 urban renewal designation, the once vacated buildings within that area have been renovated, reused, and converted into a mixture of offices, commercial incubator space, and retail businesses. Businesses within that area include Spaghetti Warehouse, R. Shea and Missing Falls Brewery, and a multiple of offices that occupy Canal Place. It is desired by the City that a new housing element be developed in that area in the near future. A third section of the DORA encompasses properties existing to the north of Perkins Street along N. Main and Howard Streets and extending further north up to retail businesses along North Street. The zoning classification there is a mixture of U-3 Retail Business, and U-4 Commercial Business. This area, known as the Northside District, includes many new and established restaurants, clubs, and other retail businesses with a multi-family residential element along Howard Street and Furnace Street as well. Businesses within the area include Luigi's Restaurant, Jilly's Music Room, and the Courtyard by Marriott hotel. Lock 15 Brewing Company occupies a former commercial site along North Street that was once a vacant warehouse and is now used for a mixture of retail and housing.

- C. Both the Office of the Mayor and DAP are confident that the expanded DORA will not only enhance the entertainment and cultural appeal of Downtown Akron as a destination, but it will also serve to enhance the economic appeal of Downtown and make the area more attractive to businesses in the creative, service, and technology sectors.

Council reserves the right to modify the public health and safety requirements as needed pursuant to state law.

Section 5. That each rule, requirement, and standard set forth in Exhibit A and incorporated herein is necessary to ensure the public health and safety, and the same is hereby adopted in its entirety, and Council therefore approves the application filed with it.
